

We, the undersigned Knightsen residents, property owners, tax payers and voters hereby advise the members of the Knightsen Town Advisory Board of our committed opposition to the proposed Knightsen Wetlands Restoration project. This project will adversely affect our coveted Knightsen country life-style and has the potential to radically and irreversibly degrade the character and environment of our town. KTAC needs to listen to the people of Knightsen and honestly represent our views to our elected officials before they do irreparable damage to our beloved community.
